Re: Offer of Engagement — Independent Contractor (Chief Technology Officer)

Dear Jonathan,

On behalf of The Zara Law Firm, LLC (the **"Firm"**), I am pleased to extend this offer to engage Open Arms Consulting, LLC (**"Open Arms"** or **"Contractor"**), through you as its principal, to serve as the Firm's Chief Technology Officer on an independent-contractor basis. We created this role to drive the Firm's growth through search, AI/AEO visibility, content and paid media, and to strengthen the Firm internally through its systems, IT protocols and technical support.

The headline terms are:

- Capacity — Independent contractor (1099). Neither Open Arms nor you will be an employee of the Firm.
- Role — Chief Technology Officer (contract). Full scope of services is set out in Exhibit A.
- Base fee — $70,000 per year, paid $2,916.67 semi-monthly (on the 1st and 16th).
- Performance bonus — obtainable (not guaranteed): $26,000 at target and up to approximately $41,400 at full performance, measured in Semrush and paid quarterly. Details in Exhibit B.
- Exclusivity — Contractor will work exclusively on the Firm's projects during the term.
- Term — twelve (12) months, renewable by mutual agreement.
- Tools & equipment — the Firm will provide the Semrush subscription and approved equipment needed to build and host the Firm's proprietary tools.
- Ownership — all work product, tools, code, content, inventions and intellectual property created for the Firm (and for the other Covered Parties), and all firm accounts and data, are the exclusive property of the Firm; the Contractor's own pre-existing tools remain the Contractor's, subject to a license to the Firm (Section 7).

This offer is contingent on your signature and acceptance of the attached *Independent Contractor Services Agreement* and its Exhibits. We are excited to move forward, and given your work on the Firm's retainer-compliance audit and your background building AI-driven tooling, we believe this is a strong fit. Please sign and return by Friday, July 24, 2026.

Sincerely,

____

Michael A. Zara, Esq., President
The Zara Law Firm, LLC

cc: Lenny Giamanco, Director of Operations

INDEPENDENT CONTRACTOR SERVICES AGREEMENT

This Independent Contractor Services Agreement (this **"Agreement"**) is made and entered into as of July 21, 2026 (the **"Effective Date"**) by and between The Zara Law Firm, LLC, a Florida limited liability company d/b/a Zara Injury Law (the **"Firm"**), and Open Arms Consulting, LLC, a Georgia limited liability company (the **"Contractor"**), and is joined by Jonathan Low, individually (the **"Principal"**), solely with respect to Sections 3, 6, 7, 10 and 11. The Firm and the Contractor are each a **"Party"** and together the **"Parties."**

Recitals

The Firm is a personal-injury law firm operating in North Carolina, Colorado, Wisconsin, Florida, Arizona and Georgia. The Contractor is engaged in the business of technology consulting, software development, and digital-marketing services. The Firm wishes to engage the Contractor to serve as its Chief Technology Officer and to provide the services described herein, and the Contractor wishes to provide those services, each on the terms set forth in this Agreement. In consideration of the mutual covenants below, and for other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties agree as follows:

1. Engagement; Services. The Firm engages the Contractor, and the Contractor accepts the engagement, to perform the services described in Exhibit A (Scope of Services) (the "Services"). The Contractor shall perform the Services in a professional and workmanlike manner consistent with prevailing industry standards and in a manner that supports the Firm's compliance with the rules of professional conduct and confidentiality obligations applicable to the Firm. The Contractor shall report to the Firm's President and/or Director of Operations, or such other person as the Firm may designate.

(a) Covered Parties. The Services further include, when requested by the Firm or by Michael A. Zara, services performed for the benefit of the Firm's affiliates, for Michael A. Zara personally, and for "Money Mike," Money Mike Law, and any other brand, trade name, trademark, media property, social-media persona, or entity now or hereafter owned or controlled, in whole or in part, by Michael A. Zara (each, together with the Firm, a "Covered Party" and collectively the "Covered Parties"). All provisions of this Agreement — including Sections 6, 7, 10, 11 and 15 — apply with equal force to services performed for, and to the information, accounts, brands and work product of, each Covered Party.

(b) Services performed for any Covered Party at the direction of the Firm or of Michael A. Zara are deemed Services under this Agreement, are fully compensated by the amounts payable under Section 5, and are subject to every provision of this Agreement, including Sections 6, 7, 10 and 11.

2. Independent Contractor Status. The relationship of the Parties is that of independent contracting parties.

(a) The Contractor is an independent contractor and not an employee, partner, joint venturer, or agent of the Firm, and neither the Contractor nor the Principal shall be treated as an employee for any purpose.

(b) The Contractor controls the manner, method and means by which the Services are performed, subject to the Firm's reasonable direction as to scope, priorities and deliverables.

(c) The Contractor is a 1099 contractor and is solely responsible for all federal, state and local income and self-employment taxes on amounts paid under this Agreement. The Firm will not withhold taxes and will issue an IRS Form 1099.

(d) The Contractor and the Principal are not eligible for and waive any Firm employee benefits, including health insurance, paid time off, retirement, workers' compensation and unemployment coverage.

(e) Except as expressly provided in Section 5(c), the Contractor is responsible for its own tools, equipment and insurance.

(f) The Contractor has no authority to bind the Firm or incur obligations on the Firm's behalf except as the Firm expressly authorizes in writing.

3. Exclusivity; Time and Effort. The Firm is the Contractor's first priority. During the Term, the Contractor and the Principal shall devote the professional time and effort necessary to perform the Services and to meet the monthly commitments in Exhibit E. The Contractor and the Principal shall not, directly or indirectly, provide services to, or hold a material interest in, any other personal-injury law firm or any competitor of the Firm, or engage in any activity that conflicts with the Services or the Firm's interests, without the Firm's prior written consent. The Firm consents to the non-competing, non-legal engagements listed on Exhibit D, which are subordinate to this Agreement and to the Priority of Services in Exhibit E; the Firm's consent to any such engagement automatically suspends in any month the Exhibit E commitments are not met. The Contractor shall disclose in writing any additional engagements before undertaking them.

4. Term; Renewal. This Agreement begins on the Effective Date and continues for twelve (12) months (the "Initial Term"), unless earlier terminated under Section 13. The Agreement may be renewed for successive terms by the mutual written agreement of the Parties (together with the Initial Term, the "Term").

5. Compensation. As full consideration for the Services, the Firm shall pay the Contractor as follows:

(a) Base Fee. A base fee of $70,000 per year, payable $2,916.67 semi-monthly on the 1st and 16th of each month, in accordance with the Firm's standard accounts-payable practices.

(b) Performance Bonus. A performance bonus as set out in Exhibit B (Compensation & Performance Bonus Schedule). The bonus is obtainable but NOT guaranteed; every dollar is tied to measured performance, with a target of $26,000 and full-performance potential of approximately $41,400. Amounts are measured in Semrush and reviewed and paid quarterly, with an annual reconciliation, and are subject to the attribution and baseline rules in Exhibit B.

(c) Tools & Equipment. The Firm will provide the Semrush subscription and such approved equipment and infrastructure as are reasonably necessary to build and host the Firm's proprietary tools. All such subscriptions, equipment, infrastructure and tools remain the exclusive property of the Firm.

(d) Expenses. The Firm will reimburse reasonable, documented expenses that it has approved in advance in writing.

6. Confidentiality; Client Confidentiality and Privilege. The Contractor and the Principal will have access to confidential and privileged information.

(a) "Confidential Information" means all non-public information of the Firm, the other Covered Parties, and their respective clients, including client identities and files, matter and case data, intake and lead data, financial and business information, systems, credentials, and the Firm's proprietary tools and Work Product. Confidential Information also includes all non-public personal, family, financial, business, investment, brand, marketing and social-media information of Michael A. Zara and of every other Covered Party, however obtained.

(b) Because the Firm is a law firm, much Confidential Information is subject to the attorney-client privilege, the work-product doctrine, and the rules of professional conduct. The Contractor and the Principal shall preserve such confidentiality and privilege, shall use Confidential Information solely to perform the Services, and shall not disclose it to any third party without the Firm's prior written consent.

(c) The Contractor and the Principal shall comply with the Firm's information-security protocols, safeguard all credentials and data, and use the Firm's systems only as authorized.

(d) These obligations survive termination of this Agreement indefinitely as to client and privileged information. Upon termination, the Contractor shall return or, at the Firm's direction, securely destroy all Confidential Information and certify the same.

7. Work Product; Intellectual Property; Ownership. This Section is intended to give the Firm complete and exclusive ownership of everything created, conceived, or maintained for the Firm or for any other Covered Party.

(a) Work Product Defined. "Work Product" means all results and proceeds of the Services and all deliverables, software, source code, object code, tools, scripts, agents, data pipelines, models, prompts, algorithms, content, copy, documentation, designs, and the proprietary items, together with all SEO, AEO and search-marketing work and deliverables (including keyword research and strategy, on-page and technical optimizations, schema, backlinks and link profiles, local-SEO assets and rankings improvements), all social-media content, posts, videos, creatives, captions, campaigns, handles, pages, channels, follower and audience bases and engagement data, all paid-media and advertising work (including ad accounts, campaign structures, ad copy and creatives, keywords, bids, audiences, custom and lookalike segments, pixel, tag and conversion data, and optimization learnings), all analytics, attribution and performance data, all leads and lead data, together with all inventions, discoveries, ideas, concepts, know-how, methods, processes, techniques, business and product concepts, improvements, derivatives, modifications, enhancements, updates and maintenance, and all feedback and suggestions — in each case whether or not patentable, copyrightable or otherwise legally protectable, whether generated by a human or by AI or automated tools, and whether conceived or created alone or with others — that, during the Term, (i) relate to the Services or to the Firm's actual or anticipated business, (ii) result from the Services, (iii) are created using the Firm's time, resources, systems, data, accounts or Confidential Information, or (iv) are performed for a Covered Party during the Term at the direction of the Firm or Michael A. Zara. Work Product excludes Contractor Background IP as defined in Section 7(o) and listed on Exhibit C.

(b) Present Assignment (primary). The Contractor and the Principal hereby irrevocably and unconditionally assign, and agree to assign, to the Firm (or, at the Firm's written direction, to Michael A. Zara or to any other Covered Party the Firm designates) all right, title and interest — now existing or hereafter arising, throughout the world and in perpetuity — in and to all Work Product and every intellectual-property and proprietary right therein, including all patents and patent applications, copyrights and registrations, trademarks, service marks and trade dress, trade secrets, know-how, database and data rights, mask works, and all goodwill associated therewith. This is a present assignment of present and future rights and requires no further act to be effective.

(c) Work Made for Hire (backstop). To the fullest extent permitted by law, all Work Product that qualifies is a "work made for hire" for the Firm; the assignment in Section 7(b) applies to any Work Product that does not so qualify, so that the Firm owns all Work Product in every case.

(d) Ownership Regardless of Form. The Firm exclusively owns all Work Product regardless of whether it is patentable, copyrightable or otherwise protectable, and regardless of whether it is generated by a human, by artificial intelligence, or by any automated tool. The Contractor and the Principal retain no ownership of, and acquire no rights in, any output produced for the Firm or any other Covered Party.

(e) Disclosure. The Contractor and the Principal shall promptly and fully disclose to the Firm all Work Product, inventions, ideas and concepts within the scope of Section 7(a), and shall keep complete records of the same, which records are the Firm's property.

(f) Personnel and Subcontractors. The Contractor shall not use any employee, subcontractor or other third party to perform any part of the Services without the Firm's prior written consent, and shall ensure that every such person first assigns in writing all rights in their contributions to the Contractor, so that the Contractor both can and does assign them to the Firm under this Section. Before any approved employee, subcontractor or team member of the Contractor performs any part of the Services or receives access to any Firm or Covered Party system, account or Confidential Information, that person shall execute the Firm's form of confidentiality, intellectual-property-assignment and restrictive-covenant agreement, which shall name the Firm as a direct and intended beneficiary with independent enforcement rights, and the Firm may condition its consent to any personnel on that execution.

(g) No Residual Rights; No License-Back. The Contractor and the Principal retain no rights in, and receive no license to, any Work Product, and shall not use, copy, reproduce, distribute or reuse any Work Product for any person or entity other than the Firm.

(h) Third-Party & Open-Source Materials. The Contractor shall not incorporate into any Work Product any third-party or open-source material that would encumber, condition or limit the Firm's ownership of or rights in the Work Product without the Firm's prior written consent.

(i) Accounts, Data and Access. All accounts, logins, credentials, API keys, domain names, social-media handles and profiles, Google Business Profiles, Semrush, analytics and advertising accounts, and all data, content, configurations and assets created, configured, purchased or maintained for the Firm or for any other Covered Party — including every "Money Mike" or Money Mike Law branded account, handle, page, channel or property — are the exclusive property of the Firm or of the applicable Covered Party. The Contractor shall register and hold them in the Firm's name (or promptly transfer them into the Firm's name), shall keep the Firm as administrator with full access at all times, and shall deliver all credentials and control to the Firm on request and upon termination. The Contractor's own shared, multi-client tool accounts are not Firm accounts and remain Contractor Background IP; for those, the Firm receives all deliverables and outputs but not the account itself, while every Firm-dedicated account transfers to the Firm under this Section.

(j) Further Assurances; Power of Attorney. During and after the Term, the Contractor and the Principal shall, at the Firm's expense, execute all documents and take all actions the Firm reasonably requests to perfect, record, maintain and enforce the Firm's ownership of the Work Product, and they irrevocably appoint the Firm as their attorney-in-fact to do so if they fail to act. The Contractor and the Principal waive all moral rights in the Work Product to the fullest extent permitted by law.

(k) Equitable Relief. The Contractor and the Principal acknowledge that any breach of this Section 7 or of Section 6 would cause the Firm irreparable harm for which monetary damages would be inadequate, and that the Firm is entitled to injunctive and other equitable relief, without the need to post a bond, in addition to all other remedies available at law or in equity.

(l) Source-Code Custody; Documentation; Continuity. All source code, object code, scripts, agents, prompts, models, configurations, integrations and build artifacts shall be developed, committed and stored exclusively in repositories, cloud environments, password vaults and accounts owned and controlled by the Firm, with the Firm holding root and administrator access at all times. The Contractor shall commit all current code and configurations to the Firm's repositories no less often than weekly; shall maintain current, written technical documentation, architecture summaries, credential inventories and step-by-step runbooks sufficient to permit a reasonably skilled successor to operate, maintain, host and further develop all Work Product without any assistance from the Contractor or the Principal; and shall not host, store or run any Firm or Covered Party tool, website, dataset, integration or account solely on infrastructure, accounts or services that the Firm does not own or control. Compliance with this Section 7(l) is a condition of each semi-monthly Base Fee payment.

(m) No Disabling Devices; No Lock-In. The Contractor and the Principal shall not incorporate into, or permit to exist in, any Work Product or Firm system any time bomb, kill switch, license key, lock-out, back door, self-help mechanism, undisclosed dependency on the Contractor's personal accounts, or any other device or arrangement that could disable, degrade, encumber or condition the Firm's (or any Covered Party's) use, possession or control of the Work Product, whether before or after termination. Any violation of this Section is a material breach entitling the Firm to immediate termination for cause and all remedies under Section 7(k).

(n) Marketing, SEO, Social and Advertising Assets. Without limiting Sections 7(a)–(d), every marketing asset created, acquired, configured, grown or maintained in connection with the Services or for any Covered Party — including all SEO and AEO deliverables, rankings, content and backlink profiles; all social-media accounts, handles, pages, channels, content, followers, audiences and engagement histories; all advertising accounts, campaigns, creatives, audiences, pixel and conversion data and optimization learnings; all Google Business Profiles, review profiles and local listings; all analytics properties, dashboards and data; and all leads, lead lists and intake data — is, as between the Parties, the sole and exclusive property of the Firm or the applicable Covered Party from the moment of creation or acquisition. Neither the Contractor nor the Principal shall use, copy, export, repurpose or replicate any such asset, audience, dataset, strategy document or campaign structure for itself, himself or any other person, during or after the Term. All such assets shall be created and held only in accounts owned by, or registered to, the Firm or the applicable Covered Party in accordance with Section 7(i).

(o) Contractor Background IP (Carve-Out). "Contractor Background IP" means the tools, frameworks, libraries, code components, templates, methodologies and general skill and know-how that the Contractor or the Principal (i) owned or developed before the Effective Date, or (ii) develops during the Term wholly independently of the engagement, without use of any Covered Party's time, resources, systems, data, accounts or Confidential Information, and not for or specific to any Covered Party. As between the Parties, the Contractor retains ownership of Contractor Background IP, and it is not assigned under Section 7(b). To the extent any Contractor Background IP is incorporated into, or is necessary to operate, host, maintain or further develop, any Work Product, the Contractor and the Principal hereby grant the Firm and the other Covered Parties a perpetual, worldwide, royalty-free, irrevocable, sublicensable and transferable license to use, reproduce, modify, host, maintain and create derivative works of that Contractor Background IP as part of the Work Product. This license is irrevocable and survives any expiration or termination of this Agreement, so that the Firm and the other Covered Parties may continue to use, host, maintain and further develop the Work Product without any dependence on, or continued involvement of, the Contractor or the Principal. The Contractor shall identify Contractor Background IP in a written schedule before incorporating it into any Work Product; any materials not so identified are conclusively deemed Work Product owned by the Firm under Sections 7(a)–(d). For the avoidance of doubt, Contractor Background IP does NOT include, and this carve-out does not recapture, any Work Product, any account, data, or marketing asset described in Sections 7(i) or 7(n), or anything created for or funded by any Covered Party.

8. Data Security & Compliance. The Contractor shall comply with the Firm's IT and information-security protocols, with applicable data-protection laws, and with the ethical and confidentiality obligations applicable to the Firm; shall implement and maintain reasonable administrative, technical and physical safeguards; and shall promptly notify the Firm of any actual or suspected security incident affecting the Firm's or its clients' data.

9. Vendor Oversight; EverSpark. EverSpark currently provides the Firm's search-engine-optimization work. The Contractor shall oversee and verify EverSpark's campaigns for correct execution and accurate reporting, document their methods and identify any low-value or deceptive tactics, and transition the campaigns in-house over an initial observation period as the Firm directs so as to reduce cost and improve results. The Contractor shall not interfere with, or cause the Firm to breach, any Firm vendor agreement. Performance credit under Exhibit B is measured as growth above the applicable EverSpark baseline, plus the work EverSpark does not perform.

9A. Social-Media & Advertising Administration. Because the Contractor will operate all of the Firm's and the Covered Parties' social-media channels and paid-advertising programs, the following controls apply:

(a) Platform Control. Every social-media account, page, channel, business manager, ad account, pixel, tag and analytics property shall be created and operated under accounts, billing profiles and payment methods owned by the Firm (or the applicable Covered Party), with the Firm holding owner/administrator status at all times; the Contractor shall operate at manager or editor level wherever the platform permits, and shall never change ownership, admin rights, two-factor settings or recovery methods without the Firm's written approval.

(b) Publishing Authority; Advertising Compliance. All content published in the name of, or reasonably attributable to, the Firm, Michael A. Zara, "Money Mike" or any Covered Party shall comply with the Firm's brand guidelines and with the attorney-advertising, solicitation and testimonial/endorsement rules applicable in each state in which the Firm practices (currently NC, CO, WI, FL, AZ and GA), including required disclaimers; the Firm may require pre-approval of any content or campaign, and may direct the immediate removal or suspension of any content or ad.

(c) Ad Spend Controls. All advertising budgets and material budget changes must be approved by the Firm in advance in writing; spend shall run only through Firm payment methods; and all platform credits, rebates, discounts, commissions, referral payments and agency incentives attributable to the Firm's spend belong to, and shall be passed through or credited to, the Firm. The Contractor shall not accept any undisclosed markup, affiliate compensation or vendor incentive in connection with the Services.

(d) Audience & Data Use. Firm and Covered Party audiences, follower bases, subscriber and retargeting lists, pixel and conversion data shall be used solely for the benefit of the Firm and the Covered Parties, shall not be exported, shared, mirrored or used for any other client or purpose, and shall be handled consistently with Sections 6, 7(n) and 8. Upon termination, the Contractor's access to every such channel and account shall cease in accordance with Sections 13(d) and 14.

(e) Firm Systems Only; Backend Access. No campaign, advertisement, dataset, pixel, tag, automation or report may be run on, or retained solely within, the Contractor's own systems, tools or accounts. All campaigns and analytics run inside the Firm's (or the applicable Covered Party's) accounts, and the Firm retains full backend, administrative, analytics and reporting access to all campaign data and metrics at all times. The Contractor shall not configure any campaign, integration or data flow that leaves the Firm without direct, independent access to its own data and metrics.

10. Non-Solicitation; Non-Competition. During the Term and for twenty-four (24) months thereafter, the Contractor and the Principal shall not, directly or indirectly, solicit the current or former clients of the Firm or of any other Covered Party for competing legal or marketing services, or solicit for hire or engagement, hire, engage, or attempt to hire or engage, any person who is, or within the preceding twelve (12) months was, an employee, contractor or subcontractor of the Firm or of any other Covered Party — including any member of the Contractor's own team or personnel who performed any part of the Services — or otherwise induce or attempt to induce any such person to terminate or reduce their relationship with the Firm.

(a) In addition, during the Term and for twelve (12) months thereafter, the Contractor and the Principal shall not, directly or indirectly — whether as an owner, member, employee, contractor, consultant, advisor or otherwise — provide services the same as or substantially similar to the Services (including SEO, AEO/AI-visibility, social-media, content, paid-media/advertising, digital-marketing, or related technology consulting or development services) to or for any personal-injury law firm, or any agency, consultancy or vendor principally serving personal-injury law firms, in any state in which the Firm operates (currently FL, GA, NC, CO, WI and AZ), and shall be enforced to the maximum extent permitted.

(b) The Parties agree that the Firm's Confidential Information, client and referral relationships, proprietary tools, and the specialized training and market intelligence the Contractor will receive constitute legitimate business interests within the meaning of Fla. Stat. § 542.335, and that the foregoing restraints are reasonably necessary to protect them.

11. Non-Disparagement. During and after the Term, neither the Contractor and the Principal, on the one hand, nor the Firm, on the other, shall make any statement, written or oral, that disparages the other or any Covered Party — including Michael A. Zara personally and the "Money Mike" and Money Mike Law brands — or, in the Firm's case, its clients, attorneys or personnel; provided that nothing herein limits truthful statements required by law or legal process.

12. Representations & Warranties. The Contractor and the Principal represent and warrant that: (i) they are authorized to enter into and perform this Agreement and are not subject to any conflicting obligation; (ii) the Services and Work Product will be original and will not infringe any third-party right; (iii) they will comply with all applicable laws and the professional-conduct rules applicable to the Firm; and (iv) the Principal is authorized to bind the Contractor.

13. Termination. Either Party may terminate this Agreement:

(a) for convenience, upon thirty (30) days' prior written notice by either Party, during which the Contractor shall continue to perform the Services and the transition obligations in Section 13(d); or

(b) for cause, upon written notice, in the event of a material breach (including any breach of Sections 6 or 7), fraud, dishonesty, or conduct that harms or threatens to harm the Firm, any other Covered Party, or their respective clients; provided that, for a curable material breach, the breaching Party has ten (10) days after written notice to cure before termination takes effect, except that breaches of Sections 6 or 7, fraud, dishonesty or misconduct are not subject to cure and permit immediate termination.

(c) Effect of Termination. Upon termination, the Firm shall pay any accrued but unpaid Base Fee through the termination date, and any performance bonus shall be limited to amounts actually earned and verified through the termination date under Exhibit B (no unearned or projected bonus is payable). Earned Base Fee and earned, verified bonus will not be withheld; however, the Firm may condition release of the final Base Fee installment on the Contractor's return of Firm property and transfer of all access under Sections 7(i), 7(l), 13(d) and 14. Sections 6, 7, 8, 9A, 10, 11, 14, 15, 18 and 24 survive termination.

(d) Transition Assistance; Orderly Handoff. Upon notice of termination or non-renewal for any reason, and for up to ninety (90) days after the termination date at the Firm's election, the Contractor and the Principal shall provide reasonable transition assistance at the pro-rated Base Fee rate, including: (i) delivery of all source code, credentials, documentation and runbooks required by Section 7(l); (ii) transfer of administrative control of every account described in Section 7(i) within forty-eight (48) hours of the termination date; (iii) live knowledge-transfer sessions with the Firm's designated successor(s); and (iv) completion or documented handoff of all in-flight projects. The Contractor and the Principal shall not disable, suspend, withhold access to, or degrade any Firm or Covered Party system, account, campaign or tool at any time, including during any fee dispute.

14. Return of Firm Property. Upon termination for any reason, the Contractor shall immediately return to the Firm all Firm property, including all equipment, data, files, credentials, Confidential Information and Work Product, and all copies and reproductions thereof, in any format. Within forty-eight (48) hours of termination, the Contractor shall transfer to the Firm full administrative control of every account, repository, domain, profile and credential described in Section 7(i), and shall deliver a written certification, signed by the Principal, of full compliance with this Section and Sections 6(d), 7(i) and 7(l). To the extent the Contractor fails to return any Firm property, the Contractor authorizes the Firm to offset the replacement value against any amounts otherwise owed to the Contractor, including any final payment.

15. Indemnification. The Contractor shall indemnify, defend and hold harmless the Firm, the other Covered Parties, and their respective affiliates, members, attorneys and personnel, from and against any third-party claims, damages, liabilities, costs and expenses (including reasonable attorneys' fees) arising out of the Contractor's or the Principal's negligence, willful misconduct, breach of this Agreement, or infringement of any third-party intellectual-property right by the Work Product. The Firm shall likewise indemnify and hold harmless the Contractor from and against third-party claims arising out of the Firm's own materials, content or direction, except to the extent caused by the Contractor's or the Principal's breach or wrongful act.

16. Insurance. The Contractor shall maintain, at its own expense, commercially reasonable insurance appropriate to the Services (which may include general liability and, where applicable, professional-liability and cyber-liability coverage), and shall provide certificates of such insurance upon the Firm's reasonable request.

17. Assignment; Third-Party Beneficiaries. The Contractor may not assign or delegate this Agreement or any rights or obligations hereunder without the Firm's prior written consent. The Firm may assign this Agreement to any affiliate or successor. Each Covered Party that is not a signatory — including Michael A. Zara individually — is an express, intended third-party beneficiary of Sections 6, 7, 10, 11 and 15 and may enforce those Sections directly. Except as so provided, this Agreement creates no third-party rights.

18. Governing Law; Venue; Jury Waiver; Fees. This Agreement is governed by the laws of the State of Florida, without regard to its conflict-of-laws rules. The Parties consent to the exclusive jurisdiction and venue of the state and federal courts located in Hillsborough County, Florida. EACH PARTY WAIVES ANY RIGHT TO A JURY TRIAL. In any dispute arising out of this Agreement, the prevailing Party is entitled to recover its reasonable attorneys' fees and costs.

19. Notices. All notices under this Agreement must be in writing and delivered by hand, recognized overnight courier, or email with confirmation, to the addresses set out above (or as later updated in writing).

20. Severability. If any provision of this Agreement is held unlawful or unenforceable, that provision shall be modified or severed to the minimum extent necessary, and the remaining provisions shall continue in full force and effect.

21. Entire Agreement; Amendments. This Agreement, together with its Exhibits, constitutes the entire agreement between the Parties concerning its subject matter and supersedes all prior discussions and agreements. No amendment is effective unless in writing and signed by both Parties. Each Party had the opportunity to consult counsel of its choosing; accordingly, this Agreement shall not be construed against either Party as drafter.

22. Counterparts; Electronic Signatures. This Agreement may be executed in counterparts, including by electronic signature, each of which is deemed an original and all of which together constitute one instrument.

23. No Conflicting Obligations. The Contractor and the Principal warrant that the execution and performance of this Agreement will not violate any contract or law to which either is subject.

24. Survival. Any provision that by its nature should survive termination — including confidentiality, intellectual property, non-solicitation, non-competition, non-disparagement, indemnification and governing law — survives termination of this Agreement.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the Effective Date.

EXHIBIT A — SCOPE OF SERVICES

The Contractor will serve as the Firm's Chief Technology Officer (contract) and own the following, for the Firm and the other Covered Parties, coordinating with the Firm's vendors and personnel. The phased plan of execution is set out in the Firm's separate SEO & IT Roadmap, which is incorporated by reference.

Digital Growth & Search

- Oversee and verify the Firm's SEO vendor (EverSpark) for correct execution and accurate reporting, document their methods, and transition designated campaigns in-house over time.
- Own keyword strategy and on-page/technical SEO across the Firm's six markets (NC, CO, WI, FL, AZ, GA).
- Manage local SEO and the Firm's Google Business Profiles.

AI / AEO & Community Visibility

- Improve the Firm's AI-answer visibility (ChatGPT, Google AI Overviews, Perplexity, Gemini) and Semrush AI Visibility Score, and pursue visibility through Reddit and community sources.

Social, Content & Paid Media

- Operate the Firm's and Covered Parties' organic social presence (including the "Money Mike" brand) and lead the shift from static/page posts to optimized video content, subject to Section 9A.
- Build and run the Money Mike Social Engine — the daily, seven-platform, bar-compliant content operation described in the Contractor's plan (Exhibit F), at the minimum cadence set in Exhibit E, entirely inside Firm-owned accounts and infrastructure. The same content is cross-posted to both the Money Mike brand accounts and the Firm's Zara Injury Law channels.
- Plan and manage paid-search/paid-social campaigns and their conversion to signed cases, subject to Section 9A.

Internal Systems, IT & Support

- Design, build and roll out the Firm's internal SharePoint environment with matter-centric, permission-based access.
- Review, document and harden the Firm's IT protocols and security posture.
- Provide dependable technical support across the Firm's operation and manage technology vendors and tooling.
- Build and maintain the Firm's proprietary tools, all of which are owned by the Firm under Section 7.

EXHIBIT B — COMPENSATION & PERFORMANCE BONUS SCHEDULE

1. Base Fee. $70,000 per year, paid $2,916.67 semi-monthly (1st and 16th), as a 1099 contractor fee with no tax withholding.

2. Performance Bonus. Obtainable, not guaranteed. Every dollar is tied to measured performance, with a target of $26,000 and full-performance potential of approximately $41,400. Reviewed and paid quarterly, with an annual reconciliation. The six projects and how each pays:

Project / Metric	Target $	Full Perf. $	How it pays
Organic / SEO signed cases	$9,000	$15,000	$750/case (1–12), then $500/case (13–24)
Page-1 Google rankings	$4,000	$5,500	$100 per priority keyword on Page 1; +$50 Top-3
AI & community visibility	$3,000	$5,500	$200 per query + Semrush AI-Visibility kicker
Organic social growth	$3,500	$4,900	$500 per platform at +10% (7 platforms, incl. X + Google Business); +$200 at +20%
Content → video	$2,500	$3,500	$625/quarter plan met; +$250 engagement
Paid ads performance	$4,000	$7,000	$500 per paid case (to 12) + $1,000 efficiency
TOTAL	**$26,000**	**$41,400**	Obtainable, not guaranteed

3. Measurement. Semrush (AI Visibility Toolkit + SEO Toolkit) is the system of record for rankings, AI/AEO visibility and competitive share-of-voice, and benchmarks the Firm against up to nine competitor firms. The Firm's "CTO Bonus Calculator" workbook is the plug-in tool for computing quarterly payouts.

4. Baselines. Baselines are drawn from the EverSpark/Semrush ESI Monthly Report dated June 24, 2026. As of that report: AI Visibility Score 26/100 (Low) — the $750 kicker pays at a score of 45; organic sessions 718 per 28-day period; site authority 18; site health 84%. Per-market baselines for all six markets (NC, CO, WI, FL, AZ, GA) and social-follower baselines are captured at the start of the engagement; WI, FL, AZ and GA are not yet tracked. Vendor-reported "lead" figures are unverified and are NOT used to pay bonus; the case metric is paid only on signed retainers confirmed in Filevine.

5. EverSpark Attribution. EverSpark currently provides the Firm's SEO at no fee. During an initial observation period (approximately two to three months), the Contractor verifies EverSpark's work, documents their methods, and then transitions the campaigns in-house. Bonus credit is measured as growth above the applicable EverSpark baseline, plus the net-new work EverSpark does not perform (AEO, community, social, content-to-video, paid ads and all IT). When a campaign is taken in-house, full ownership of that metric transfers to the Contractor.

6. Attribution & Anti-Gaming. Signed cases are attributed by intake source-tag in Filevine (organic vs. paid vs. referral) and reconciled quarterly by Operations. Each keyword and query is credited once; a "case" means a signed retainer, not a lead. All ranking and visibility figures must be reproducible from Semrush. Operations has final say on attribution.

7. Payment Timing. Measurable components are reviewed each quarter and paid the following pay cycle; case bonuses are paid as cases are verified; an annual true-up occurs at year-end. All payments are made to Open Arms Consulting, LLC as a 1099 contractor.

8. Budget Changes; Access. If the Firm materially reduces or eliminates the budget for a channel (for example, paid ads), the affected bucket's target is adjusted pro-rata so the Contractor is not penalized for a Firm decision. The Contractor retains Semrush read-only access through the final annual reconciliation.

Nothing in this Exhibit creates a guaranteed or minimum bonus; all bonus amounts are earned only upon actual, verified performance.

EXHIBIT C — CONTRACTOR BACKGROUND IP SCHEDULE

To the Independent Contractor Services Agreement — Open Arms Consulting, LLC

Under Section 7(o) of the Agreement, the items listed below are “Contractor Background IP.” They were owned or developed by the Contractor before the Effective Date, or independently of the engagement, and are NOT assigned to the Firm. To the extent any listed item is incorporated into, or is necessary to operate, host or maintain, any Work Product, the Contractor grants the Firm and the other Covered Parties the perpetual, worldwide, royalty-free, irrevocable, sublicensable and transferable license described in Section 7(o), which survives termination. Anything not listed here is deemed Work Product owned by the Firm under Sections 7(a)–(d).

This carve-out does not include, and does not recapture, any Work Product or any account, data, or marketing asset described in Sections 7(i) or 7(n), or anything created for or funded by any Covered Party.

Item	Description	Notes
Video content templates	Reusable short-form/long-form video templates, edit styles and motion presets	Pre-existing; license to Firm for Firm videos
Caption / subtitle system	Automated captioning and formatting tooling	Pre-existing; general, multi-client
Automation workflows	General agent/automation scripts and orchestration patterns	Pre-existing; not Firm-specific
Core code frameworks	General TypeScript/Python libraries, boilerplate and CLI tooling	Pre-existing developer toolkit
Retainer-audit “scanner” pipeline	Vinesign/Filevine contract-audit tool built in the prior retainer-compliance engagement	Completed prior engagement; Contractor-owned; Firm holds the delivered audit outputs
[add item]

Acknowledged and agreed:

Contractor — Open Arms Consulting, LLC: ______________________________ Date: ___________

Firm — The Zara Law Firm, LLC: ______________________________ Date: ___________

EXHIBIT D — APPROVED OUTSIDE ENGAGEMENTS

To the Independent Contractor Services Agreement — Open Arms Consulting, LLC

Under Section 3 of the Agreement, the Firm consents to the Contractor's continued performance of the non-competing, non-legal engagements listed below, subject to the conditions that follow and to the Priority of Services and monthly commitments in Exhibit E. This consent does not modify any other provision of the Agreement, including the ownership, confidentiality, non-solicitation and non-competition provisions.

Engagement	Nature	Status
Agricultural application	Non-legal software product developed with the Contractor's brother	Ongoing; outside Firm hours
Payroll product	Non-legal SaaS product	Ongoing; outside Firm hours
Small-business clients	Websites/marketing for non-legal small businesses (non-PI, non-competing)	Ongoing; limited
[add engagement]		

Conditions of consent:

- None of the listed engagements is for a law firm, lawyer, legal-services provider, or any vendor serving the legal industry, and none competes with the Firm.
- The engagements are performed outside the time and attention required to perform the Services and to meet the Exhibit E commitments, and do not use the Firm's time, systems, resources, accounts or Confidential Information.
- No Work Product, Firm account, data or marketing asset is used in the engagements, and no conflict of interest arises.
- The Firm's consent automatically suspends in any month the Exhibit E commitments are not met, and the Firm may otherwise revoke or condition this consent in writing if any engagement interferes with the Services or the Firm's interests.

Acknowledged and agreed:

Contractor — Open Arms Consulting, LLC: ______________________________ Date: ___________

Firm — The Zara Law Firm, LLC: ______________________________ Date: ___________

EXHIBIT E — MONTHLY SERVICE COMMITMENTS & PRIORITY OF SERVICES

To the Independent Contractor Services Agreement — Open Arms Consulting, LLC

This Exhibit ensures the Firm receives a defined level of output every month regardless of the Contractor's approved outside engagements (Exhibit D). These are OUTPUT commitments — the Firm buys results, not hours, and does not direct the Contractor's schedule or working time.

1. Priority of Services. The Firm is the Contractor's first priority. The Contractor shall meet the Services and the monthly commitments below before devoting time to any outside engagement. Approved outside engagements under Exhibit D are subordinate to this Agreement, and the Firm's consent to them automatically suspends in any calendar month in which the commitments are not met. Persistent or repeated failure is "cause" under Section 13(b).

2. Minimum Monthly Commitments. The minimums below reflect the volume the Contractor presented in the Money Mike Social Engine plan (Exhibit F, incorporated by reference). They are the floor, not the ceiling — the Firm may raise them in writing. Cadence follows each platform's safe maximum so the accounts are never throttled or banned.

Commitment	Minimum / month	Notes
Total social / content volume	**~825 posts / month (≈27/day)**	Across all 7 platforms, per the Money Mike Social Engine plan (Exhibit F)
Premium hero ads	**10–15 / month**	Cinematic Money Mike spots, bar-compliant with disclaimers
Posting reliability	**≥99% on-time · 0 dark days**	14-day content buffer + dead-man's-switch monitoring
SEO / AEO work	**Per Roadmap**	Verify EverSpark; on-page/AEO; net-new Page-1 progress
AI-visibility (Semrush)	**Monthly tracking**	Move AI Visibility Score toward 45
Paid media (once live)	**Weekly optimization**	Runs inside Firm ad accounts; Firm holds all data & metrics
Performance report	**1 by the 5th**	Semrush + CTO Bonus Calculator; monthly review with Operations
Availability / response	**Core business hours (ET)**	Same-business-day response to Firm requests
SharePoint / IT	**Per Roadmap phase**	Build milestones + technical support

Per-platform cadence (per Exhibit F):

Platform	Daily cadence (per Money Mike Social Engine plan)
TikTok	4 videos / day
Instagram	3 posts + 5 stories / day
Facebook	3 posts + 2 stories / day
YouTube	3 shorts / day + 3 long-form / week
X (Twitter)	5 posts / day
LinkedIn	Daily authority post
Google Business	Daily profile update

3. Compliance & Data. Every post is treated as attorney advertising: required disclaimers, approved claim language, and a full published archive. All campaigns, analytics, pixels and reporting run inside the Firm's own accounts, with the Firm holding full backend and metrics access at all times (Agreement §9A).

4. Tracking & Review. Commitments and results are tracked in Semrush and the Firm's CTO Bonus Calculator and reviewed monthly by Operations. The performance bonus in Exhibit B remains obtainable only on verified results; no bonus is earned for work left on autopilot.

5. Effect of a Miss. In any month the commitments are not met: (a) the Firm's consent to the Contractor's outside engagements is suspended until cured; (b) the shortfall is addressed at the monthly review; and (c) persistent failure is cause for termination under Section 13(b).

Acknowledged and agreed:

Firm — The Zara Law Firm, LLC: ______________________________ Date: ___________

Exhibit F = the Contractor's Money Mike Social Engine plan, attached and incorporated as the minimum social/content baseline.

OPEN ARMS CONSULTING

Money Mike Social Engine

The plan to flood all **7 platforms** with premium, on-brand Money Mike content — **every day, on autopilot, fully compliant** — built and run in-house.

~825 posts / month

≈ 27 pieces of content going live every single day, across every platform.

PREPARED BY

Jonathan Low · for Michael Zara & Lenny — Zara Injury Law · 2026

You've approved the Money Mike campaign and seen the quality. This is the plan to turn that one cinematic spot into a **daily content machine** running across every platform your future clients live on — produced, scheduled, posted, monitored, and kept inside both platform and bar-advertising rules, with almost no day-to-day lift from the firm.

Here's exactly what it does, how it's engineered so it **never silently goes dark**, how it stays compliant, and how we get it into production.

01 The Vision

~825 pieces of premium content — about 27 going live every single day — across all 7 platforms, every month.

A self-sustaining, on-brand client-acquisition channel that puts Money Mike everywhere your audience scrolls — and keeps the firm fully protected while it does.

7	~825/mo	~27/day	10–15
PLATFORMS COVERED	POSTS PER MONTH (≈ 9,900 / YEAR)	LIVE EVERY DAY AT PEAK TIMES	PREMIUM HERO ADS / MONTH

02 Where the Content Runs

We post at the **maximum rate each platform actually rewards** — flooding the feed right up to the line the algorithms favor, on every channel, every day.

Platform	What we post	Daily cadence
TikTok	Vertical video	**4× / day**
Instagram	Reels, feed + Stories	**3 posts + 5 stories / day**
Facebook	Reels, feed + Stories	**3 posts + 2 stories / day**
YouTube	Shorts + weekly long-form	**3 shorts/day + 3 long/wk**
X (Twitter)	Posts	**5× / day**
LinkedIn	Authority posts	**Daily**
Google Business	Profile updates	**Daily**

A deliberate mix of cinematic Money Mike ads, scroll-stopping short video, educational carousels ("insurance, translated"), and brand moments — so the audience never tunes out.

THE SMART MAXIMUM — WHY NOT 600 A MONTH ON EVERY ACCOUNT

600 posts a month on a single account is about **20 every single day** — and every major platform (TikTok, Instagram, Facebook, YouTube, LinkedIn, Google Business) actively flags accounts that post at that rate. First they quietly **throttle your reach** (a shadowban you can't see), then they **suspend or ban the account** outright. For a law firm, a banned account isn't a growth setback — it's a lost asset and a hit to the firm's name.

So instead of chasing a number that gets the accounts buried or banned, we post at the maximum rate each platform actually rewards — ~825 across the network every month. That's the real flood: maximum visibility, zero risk to your accounts. Pushing past it doesn't buy more reach — it buys suppression.

03 Engineered to Never Go Dark

This is the difference between a content *machine* and a content *experiment.* The engine is built for uptime first:

- ✓ **14-day content buffer** — content is generated in advance and posted from the library, so a generation hiccup **never stops posting.**
- ✓ **Dead-man's-switch monitoring** — if any stage silently fails it alerts immediately, plus a daily health digest. No more finding out a week later that posting quietly stopped.
- ✓ **Auto token refresh + retry queues** — expired logins and one-off platform errors self-heal instead of breaking the chain.
- ✓ **Full state tracking** — every post is logged, idempotent, and recoverable.

> **The goal: zero days with no content · ≥ 99% on-time posting.**

04 Inside the Rules — Account Safety

Volume only works if the accounts stay healthy. Built in:

- ✓ **Account warm-up** so new or cold accounts ramp safely instead of getting flagged.
- ✓ **Per-platform safe posting rates** — push hardest where it's rewarded, right-size where over-posting gets buried.
- ✓ **Native re-encoding + native captions per platform** so nothing reads as duplicate content and gets shadowbanned.

05 Inside the Rules — Bar Compliance

Every post a law firm publishes is **attorney advertising**, and it has to be done right. Baked into every single piece:

- ✓ Required **disclaimers** on every ad (already on the approved Money Mike spots).
- ✓ **Approved claim language** aligned to the firm's standards and bar rules.
- ✓ A **full archive** of everything published, for the record.

> **You get the volume without the risk.**

06 Clear Brand, Approved Advertising

- ✓ A **locked brand system** — the Money Mike persona, voice, and canonical endcard — so every post is unmistakably yours.

- **Pre-approved ad templates** per content pillar, so content flows daily without a per-post approval bottleneck.

07 How It Ramps

1

Setup & Build

WEEKS 1–2

Connect every account, stand up the engine, and load a 2-week content runway before anything goes live.

2

Launch

WEEKS 3–4

Content begins flowing and ramps to full volume across all platforms.

3

Full Flood

DAY 30+

~27 posts/day, with weekly optimization driven by real performance data from every post.

MONTH 1 **Foundation laid** — audience building, engagement climbing.

MONTH 2 **Momentum** — real follower growth and the first inbound leads from content.

MONTH 3 **Compounding** — growing reach and a measurable, repeatable lead flow.

08 Already Engineered & Ready

The hard parts are built and tested — this isn't a concept, it's ready for production the moment we're set up:

- **Account warm-up logic** + safe-cadence scheduling
- **Bar-advertising-compliant templates** with disclaimers baked in
- **Locked brand** + a library of approved Money Mike advertising
- **Auto-poster with dead-man's-switch** alerting on silent failures
- **Premium per-platform posting times**
- **Real performance data** captured from every post for weekly optimization

Ready to go into production the moment the accounts are connected.

09 Next Steps

1. **You review this plan** with Lenny.
2. **We sit down — Mike, Lenny, and me** — to align on the build, the tools and access the firm provides, and my role on the team driving it.
3. On the green light, we connect the accounts, finish setup, and **go live within 30 days.**

I'm ready to build this and run it in-house as part of the team. Let's get the meeting on the calendar and put Money Mike everywhere.
