Money Mike Program — Scope & Investment Alignment

Prepared for Michael Zara & Lenny Giamanco · Zara Injury Law · July 22, 2026 · Confidential

PURPOSE

I am fully committed to this engagement and to the Money Mike vision — the plan I presented is the program I intend to build. This document has one goal: to align the guaranteed monthly scope with the investment so that everything carrying Mike's name is done at the highest quality from day one. It lays out what this program costs on the open market, what the current investment realistically funds, and two clean ways to structure it — including a path that keeps the full program available the moment it has proven itself.

1 · WHAT THIS PROGRAM COSTS AT MARKET

The engagement combines four services that firms normally buy separately. Typical market rates for a personal-injury firm:

COMPONENT	SCOPE	TYPICAL MARKET RATE
Legal-vertical SEO & AEO	Six markets, vendor oversight, AI-visibility program	$5,000 – $15,000 / mo
Social content operation	~825 posts/mo across 7 platforms + 10–15 cinematic ad spots	$10,000 – $25,000 / mo
Fractional CTO / IT	SharePoint build, IT protocols, vendor & tooling management, support	$8,000 – $12,000 / mo
Paid media management	Campaign build and weekly optimization	$2,000 – $5,000 / mo
Combined market replacement cost		**$25,000 – $50,000+ / mo**
Current offer (base $70,000/yr + performance bonus to ~$41,400)		**≈ $5,800 – $9,300 / mo**

My automation is exactly why the Firm should not pay agency prices — that efficiency is the value I bring in-house. But the full program as drafted requires an estimated 150–200 working hours per month. At the current base, that is an effective rate below $40/hour for CTO-level work — a structure that forces speed over quality on content that carries Mike's name and the Firm's bar obligations.

2 · THE CEILING AND THE FLOOR

The Social Engine plan presented the program's **full performance at scale — its ceiling**: what the engine reaches once built, ramped, and funded. Exhibit E as drafted adopts those same numbers as the **guaranteed monthly floor from month one**. That inversion matters for quality:

- **No ramp.** The plan itself schedules weeks 1–2 for setup and full volume from day 30 — yet the draft applies full minimums immediately.

- **Quality compression.** 10–15 cinematic spots monthly as a floor leaves no room to hold a piece back until it is right. Attorney advertising should never ship on a quota deadline.
- **Single point of failure.** The Agreement restricts additional personnel, so a guaranteed 27 posts/day with zero dark days rests on one person with no slack for illness or platform outages.

> **The principle:** guarantee what can be delivered at the highest quality at the current investment, and keep the full program as a defined option the Firm can switch on once the results are proven — rather than a default that under-delivers on Mike's brand.

3 · SIDE BY SIDE — FULL PROGRAM VS. FOCUSED LAUNCH

DIMENSION	FULL PROGRAM (EXHIBIT E AS DRAFTED)	FOCUSED LAUNCH (PROPOSED AT CURRENT INVESTMENT)
PLATFORMS	All 7, full cadence, day one	TikTok, Instagram, YouTube at full cadence; automated cross-posts to the rest
MONTHLY VOLUME	~825 posts (≈27/day)	~350–400 posts (≈12/day), engineered for engagement over raw count
PREMIUM HERO ADS	10–15 / month	3–4 / month, each held to the approved Money Mike standard
RELIABILITY	≥99% on-time · zero dark days, no carve-outs	≥95% on-time; buffer + monitoring; outage/illness carve-out
SEO MARKETS	All six markets at once	FL & GA first (tracked baselines exist); one market added per quarter
IT & SHAREPOINT	Uncapped support + full build	Phased build; 10 support hrs/mo included, overage at agreed rate
RAMP	Full minimums from month 1	Month 1 build · month 2 at 50% · full scope month 3
ESTIMATED WORKLOAD	150–200 hrs / month	60–80 hrs / month
MARKET VALUE	\$25,000 – \$50,000 / mo	\$10,000 – \$15,000 / mo
FIT AT \$70K BASE	Under-funded ~3–4× — quality at risk	Fair exchange — premium quality, sustainable

Performance bonus (Exhibit B) is unchanged in either structure — every bonus dollar stays tied to verified results.

4 · TWO WAYS TO STRUCTURE IT

Path A — Focused Launch at the Current Investment

Base and bonus exactly as offered ($70,000 + up to ~$41,400). Guaranteed scope per the Focused Launch column, with the 90-day ramp. The Firm gets the highest-quality version of everything it pays for, immediately.

Path B — Full Program at Market-Aligned Investment

Exhibit E as drafted — all seven platforms, ~825 posts, 10–15 hero ads monthly — funded to match: either a base adjustment toward market, or the current base plus a program service fee of **$6,500/month** once the engine is live. Still roughly half of the low end of agency replacement cost.

Built-In Upgrade — Prove It, Then Scale It

Under Path A, the full program stays on the table as a defined option: after 90 days of verified results, the Firm may elect the Full Flood upgrade at $6,500/month, or fold it into a renewal term. The Firm scales its investment only after the results are proven — no unproven spend, no under-funded promises.

CLOSING

Nothing here changes my commitment or the vision — it protects them. I would rather guarantee excellence at the level this investment supports, and earn the expansion with results, than sign up to a volume that forces trade-offs on Mike’s brand. Thirty minutes together and we can pick a path and sign this week.
